Autumn Storm Lizzy Ford  
 A freak accident landed both of the Khavalov twins under my command just before a routine mission turned into a nightmare. I brought home one twin in a coffin and the other in a coma missing his leg. I did everything right--and still people died. I can't forget that night or how many lives changed. Including mine.

Tome of Salvation Autumn Storm (#2, Witchling Series)  
 After the shock of her first trial, Leslie believes she

can handle anything, including turning into a magic elf or whatever the fae really are. But the differences between alpha werewolf Ben and Tristan - the enigmatic leader of the fae, whose abs and sexual prowess are the stuff of dreams - soon have her wading into new supernatural waters. Guarded where Ben was assertive, Tristan is hard to understand and even harder to predict. The most unnerving part: he's empathic. He can read every tiny little emotion she experiences. Such as ?

betrayal. The Book of Secrets has revealed a truth that leaves her questioning everything ? and everyone ? she's ever known. Something far worse than the Trials, and more frustrating than Tristan forbidding her from using her temporary fae magic to save an entire generation of his people. The more she learns from Tristan and the Book, the less certain she becomes of her own world, and she begins to resent the Kingmaker magic that ensures she's only fae for a week.

He only needs three nights to make her his ... With more heart than sense, fearless, beautiful Zoey has saved countless college-aged women from horrifying deaths at the hands of supernatural sadists. She may be a mere half-succubus in a society that views half-breeds with derision, but she still retains the highest rescue rate of any Hunter in the Sucubatti society. As the calm,

disciplined leader of the Incubatti Enforcers, Declan is the polar opposite of Zoey – and the sworn enemy of her society. Forced to rescue her one night, Declan realizes two things: he doesn't need someone as wild and independent as Zoey in his life – and he can't live without her. In this world, there's only one Incubus for every Sucubatti and Zoey and Declan are stuck with each other. They're just as likely to kill each other as they are to yield to each other's sex magic.

She has authority issues and drinks too much. He is the irresistibly sexy Incubus pre-ordained to tame her. Neither can fight their intense attraction, and yet trusting each other is out of the question. What happens when their worlds crash down around them? Strike three. You're mine.

The past is waiting. Josie Jackson is whisked further into the past, to the era of Vikings and the (almost) eternal winters of Norway.

Carter, the mastermind behind her foray through time, reveals that she'll be remaining there for six years - assuming she survives the first winter. To complicate matters, Josie has an unexpected health condition, one that threatens her life more than the frigid cold, Viking raids and wild animals. After un-creating Taylor and leaving Batu in the Mongol era, Josie wants nothing to do with any other man, especially not the Viking warrior she's engaged to shortly after dropped into a fjord in

front of his village. Not everyone is as he seems in this era, from her reluctant new husband, to the mystic - scorned by the rest of the village - whose futuristic visions are too accurate to be divine, to Carter, the evil genius who's tormented her through three eras of history. When she finally learns the truth behind why he chose her, she understands too well what the stakes of this game really are.

**The Black God (#2, Damian Eternal)** Lizzy Ford

This little book is confined to very simple “reading lessons upon the Form and Motions of the Earth, the Points of the Compass, the Meaning of a Map: Definitions.” The shape and motions of the earth are fundamental ideas—however difficult to grasp. Geography should be learned chiefly from

maps, and the child should begin the study by learning “the meaning of map,” and how to use it. These subjects are well fitted to form an attractive introduction to the study of Geography: some of them should awaken the delightful interest which attaches in a child’s mind to that which is wonderful—incomprehensible. The Map lessons should lead to mechanical efforts, equally delightful. It is only when presented to the child for the first time in the form of stale

knowledge and foregone conclusions that the facts taught in these lessons appear dry and repulsive to him. An effort is made in the following pages to treat the subject with the sort of sympathetic interest and freshness which attracts children to a new study. A short summary of the chief points in each reading lesson is given in the form of questions and answers. Easy verses, illustrative of the various subjects, are introduced, in order that the children may connect pleasant poetic fancies

with the phenomena upon which “Geography” so much depends. It is hoped that these reading lessons may afford intelligent teaching, even in the hands of a young teacher. The first ideas of Geography—the lessons on “Place”—which should make the child observant of local geography, of the features of his own neighbourhood, its heights and hollows and level lands, its streams and ponds—should be conveyed viva voce. At this stage, a class-book cannot take the place of

an intelligent teacher. Children should go through the book twice, and should, after the second reading, be able to answer any of the questions from memory. Charlotte M. Mason *Omega* Black Industries A school for Witchlings... The ultimate choice between Light and Dark... Where the price of a mistake...is your soul.
