Each Little Bird that Sings

In a near wordless masterpiece that could only have been devised by David Wiesner, a cat named Mr. Wuffles doesn't care about toy mice or toy goldfish. He's much more interested in playing with a little spaceship full of actual aliens—but the ship wasn't designed for this kind of rough treatment. Between motion sickness and damaged equipment,

the aliens are in deep trouble. When the space visitors dodge the cat and take shelter behind the radiator to repair the damage, they make a host of insect friends. The result? A humorous exploration of cooperation between aliens and insects, and of the universal nature of communication involving symbols, “cave” paintings, and gestures of friendship. A Caldecott Honor book.

A runaway seeks Harper Lee for answers  
Sometimes the things that need to be discovered aren't so easily found at home. Erin is certain that this is true in her case. A book is all that connects Erin to her mother, who died when she was a baby. But how much can

Erin really learn about her mother from a tattered copy of *To Kill a Mockingbird*? On the eve of her sixteenth birthday, Erin decides it's finally time to find out. And so begins her bus journey from Minnesota to Alabama in search of Harper Lee, the reclusive author of *To Kill a Mockingbird*. In a novel full of quirky characters, strange coincidences, and on-the-road adventures, *In Search of Mockingbird* by Loretta Ellsworth deftly traces a unique voyage of self-

discovery, perfect for fans of *To Kill a Mockingbird* and *Go Set a Watchman*. "Light, contemporary quest story . . . Suggest this as a follow-up to Lee's classic novel." —Booklist "Erin's journey of self-discovery gives her the courage to confront her own failings and the maturity to accept her father's plans to marry. . . . Readers will root for her while reaching for a copy of *To Kill a Mockingbird*." —Publishers Weekly "Ellsworth makes Erin's unlikely coming-of-age

trip convincing. Designed to look like an old journal, the story's searching-for-mother theme should make it especially appealing to older fans of Kate DiCamillo's *Because of Winn Dixie* (2000) and Phyllis Reynolds Naylor's *Alice Books*. An engaging road trip." -Kirkus Reviews

There are many good books in the market dealing with the subject of allelopathy. When we designed the outline of this new book, we thought that it should include as many different points of view as possible, although in an integrated general scheme. Allelopathy can be viewed from different of perspectives, ranging

from the molecular to the ecosystem level, and including molecular biology, plant biochemistry, plant physiology, plant ecophysiology and ecology, with information coming also from the organic chemistry, soil sciences, microbiology and many other scientific disciplines. This book was designed to include a complete perspective of allelopathic process. The book is divided into seven major sections. The first chapter explores the international development

of allelopathy as a science and next section deals with methodological aspects and it explores potential limitations of actual research. Third section is devoted to physiological aspects of allelopathy. Different specialists wrote about photosynthesis, cell cycle, detoxification processes, abiotic and biotic stress, plant secondary metabolites and respiration related to allelopathy. Chapters 13 through 16 are collectively devoted to various aspects of plant

ecophysiology on a variety of levels: microorganisms, soil system and weed germination. Fundamental ecology approaches using both experimental observations and theoretical analysis of allelopathy are described in chapters 16 and 17. Those chapters deal with the possible evolutionary forces that have shaped particular strategies. In the section named “allelopathy in different environments”, authors primarily center on marine, aquatic, forest

and agro ecosystems. Last section includes chapters addressing application of the knowledge of allelopathy. *Old Churches, Their Cemeteries and Family Graveyards of Princess Anne County, Virginia* Circa Now "How to Bury a Goldfish" instills meaning in the passages of everyday life. She has to, otherwise how else would rescuing loons get the media attention it deserves? But a visit from Higher Management guru Ian Trutch means she'll have to put some spin on the "fabulous work" she and the staff have been doing. Sure, her latest hobby of haranguing a cocky colleague is

worthwhile, but it isn't part of GWI's mission statement or anything. So, how to convince the higher-ups she and the others are working hard for their higher purpose? Hmm. Dating Trutch seemed the obvious move, but now she's not so sure he is what he says he is, and the office is turned upside down as acts of local ecoterrorism are suddenly on the rise, and Dinah's famed mother—a bona fide well-known Jacques Cousteau type—makes an unforgettable

In *Working South*, renowned watercolorist Mary Whyte captures in exquisite detail the essence of vanishing blue-collar professions from across ten states in the American South with sensitivity and reverence for her subjects. From the textile mill worker and tobacco farmer to the sponge diver and elevator operator, Whyte has sought out some of the last remnants of rural and industrial workforces declining or altogether lost through changes in our economy,

environment, technology, and fashion. She shows us a shoeshine man, a hat maker, an oysterman, a shrimper, a ferryman, a funeral band, and others to document that these workers existed and in a bygone era were once ubiquitous across the region. "When a person works with little audience and few accolades, a truer portrait of character is revealed," explains Whyte in her introduction. As a genre painter with skills and intuition honed through years of practice and toil, she shares much

in common with the dedication and character of her subjects. Her vibrant paintings are populated by men and women, young and old, black and white to document the range of Southerners whose everyday labors go unheralded while keeping the South in business. By rendering these workers amid scenes of their rough-hewn lives, Whyte shares stories of the grace, strength, and dignity exemplified in these images of fading southern ways of life and

livelihood. Working South includes a foreword by Martha Severens, curator of the Greenville County Museum of Art in Greenville, South Carolina.
