But in the long, hot summer of his seventh year, two groups of migrant workers — and two very dangerous men — came through the Arkansas Delta to work the Chandler cotton farm. And suddenly mysteries are flooding Luke's world. A brutal murder leaves the town seething in gossip and suspicion. A beautiful young woman ignites forbidden passions. A fatherless baby is born ... and someone has begun furtively painting the bare clapboards of the Chandler farmhouse, slowly, painstakingly, bathing the run-down structure in gleaming white. And as young Luke watches the world around him, he unravels secrets that could shatter lives — and change his family and his town forever....

Roscoe Pound, former dean of Harvard Law School, delivered a series of lectures at the University of Calcutta in 1948. In these lectures, he criticized virtually every modern mode of interpreting the law because he believed the administration of justice had lost its grounding and recourse to enduring ideals. Now published in the U.S. for the first time, Pound's lectures are collected in Liberty Fund's *The Ideal Element in Law*, Pound's most important contribution to the relationship between law and liberty. *The Ideal Element in Law* was a radical book for its time and is just as meaningful today as when Pound's lectures were first delivered. Pound's view of the welfare state as a means of expanding government power over the individual speaks to the front-page issues of the new millennium as clearly as it did to America in the mid-twentieth century. Pound argues that the theme of justice grounded in enduring ideals is critical for America. He views American courts as relying on sociological theories, political ends, or other objectives, and in so doing, divorcing the practice of law from the rule of law and the rule of law from the enduring ideal of law itself. Roscoe Pound is universally recognized as one of the most important legal minds of the early twentieth century. Considered by many to be the dean of American jurisprudence, Pound was a former Justice of the Supreme Court of Nebraska and served as dean of Harvard Law School from 1916 to 1936. Adapting Tests in Linguistic and Cultural Situations Humana Press
Catullus Kelly is a young Jamaican. He is a graduate in English literature and his parents or, more particularly, his mother have sent him to London to improve himself. His mother sends him money so he does not need to work but he does occasionally. The novel starts off on a sort of picaresque journey round London for the young Jamaican. He stays in a rooming house, owned by Erasmus Thompson, a Jamaican who owns various properties in London and is married to Bridie, an Irish woman. Erasmus acts as a guide and mentor to Catullus. It is Erasmus that sends Catullus off on his journey. His first stop is to the White Defence League, where he learns of a book *The Shape of Skulls to Come*, apparently a racist book written by one Aethelstan Gordon-Venning. He is not allowed to buy the book and spends much of the novel trying to track down both the book and its author. Of course, he ultimately finds both but in an unlikely place. He is next picked up by a white prostitute in a Jaguar, Olga, who ends up paying him. He will see her again. Catullus continues his journey with visits to Soho, where he meets a group of homosexuals, the BBC World Service (wittily called the Temperance Broadcasting Unit - TBU) and a barber's shop staffed by West Indians who spend a lot of time talking but little barbering. He writes a script for the TBU about the homosexuals but is rejected. He takes a job in a comprehensive school as a teacher where the pupils make fun of him and finally accept him. He takes them to a nude film and nearly loses his job over it. No matter, as he will not return to the job but goes to work in a

coffee bar in Leicester Square. All the while Salkey has been poking fun at the British and, indeed, at the West Indians. While négritude is frequently discussed, it is not practised and Salkey is at pains to point out that the Africans look down on the West Indians.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as *Auto Repair For Dummies*, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
