A superb, atmospheric thriller from 'one of crime fiction's new stars' [Sunday Telegraph] Joseph Vaughan's life has been dogged by tragedy. Growing up in the 1950s, he was at the centre of series of killings of young girls in his small rural community. The girls were taken, assaulted and left horribly mutilated. Barely a teenager himself, Joseph becomes determined to try to protect his community and classmates from the predations of the killer. Despite banding together with his friends as 'The Guardians', he was powerless to prevent more murders - and no one was ever caught. Only after a full ten years did the nightmare end when the one of his neighbours is found hanging from a rope, with articles from the dead girls around him. Thankfully, the killings finally ceased. But the past won't stay buried - for it seems that the real murderer still lives and is killing again. And the secret of his identity lies in Joseph's own history...

Translation is stigmatized as a form of writing, discouraged by copyright law, deprecated by the academy, exploited by publishers and corporations, governments and religious organizations. Lawrence Venuti exposes what he refers to as the 'scandals of translation' by looking at the relationship between translation and those bodies - corporations, governments, religious organizations, publishers - who need the work of the translator yet marginalize it when it threatens their cultural values. Venuti illustrates his arguments with a wealth of translations from The Bible, the works of Homer, Plato and Wittgenstein, Japanese and West African novels, advertisements and business journalism.

WINNER OF THE 2020 PULITZER PRIZE IN GENERAL NONFICTION "The Undying is a startling, urgent intervention in our discourses about sickness and health, art and science, language and literature, and mortality and death. In dissecting what she terms 'the ideological regime of cancer,' Anne Boyer

has produced a profound and unforgettable document on the experience of life itself." —Sally Rooney, author of Normal People "Anne Boyer's radically unsentimental account of cancer and the 'carcinogenosphere' obliterates cliché. By demonstrating how her utterly specific experience is also irreducibly social, she opens up new spaces for thinking and feeling together. The Undying is an outraged, beautiful, and brilliant work of embodied critique." —Ben Lerner, author of The Topeka School A week after her forty-first birthday, the acclaimed poet Anne Boyer was diagnosed with highly aggressive triple-negative breast cancer. For a single mother living paycheck to paycheck who had always been the caregiver rather than the one needing care, the catastrophic illness was both a crisis and an initiation into new ideas about mortality and the gendered politics of illness. A twenty-first-century illness as metaphor, as well as a harrowing memoir of survival, The Undying explores the experience of illness as mediated by digital screens, weaving in ancient Roman dream diarists, cancer hoaxers and fetishists, cancer vloggers, corporate lies, John Donne, pro-pain "dolorists," the ecological costs of chemotherapy, and the many little murders of capitalism. It excoriates the pharmaceutical industry and the bland hypocrisies of "pink ribbon culture" while also diving into the long literary line of women writing about their own illnesses and ongoing deaths: Audre Lorde, Kathy Acker, Susan Sontag, and others. A genre-bending memoir in the tradition of The Argonauts, The Undying will break your heart, make you angry enough to spit, and show you contemporary America as a thing both desperately ill and occasionally, perversely glorious. Includes black-and-white illustrations

The New York Times bestselling Raven's Shadow Trilogy was a perfect read for "fans of broadscale epic fantasy along the lines of Robert Jordan's Wheel of Time series and George R. R. Martin's Song of Ice and Fire novels."\* Now, Anthony Ryan begins a new saga, *The Draconis Memoria*... Throughout the vast lands controlled by the Ironship Trading Syndicate, nothing is more prized than the blood of drakes. Harvested from captive or hunted Reds, Greens, Blues and Blacks, it can be distilled into elixirs that bestow fearsome powers on the rare men and women known as the Blood-blessed. But not many know the truth: that the lines of drakes are weakening. If they fail, war with the neighboring Corvantine Empire will follow swiftly. The Syndicate's last hope resides in whispers of the existence of another breed of drake, far more powerful than the rest, and the few who have been chosen by fate to seek it. Claydon Torcreek is a petty thief and an unregistered Blood-blessed who finds himself pressed into service by the Protectorate and sent to wild, uncharted lands in search of a creature he believes is little more than legend. Lizanne Lethridge is a formidable spy and assassin facing gravest danger on an espionage mission deep into the heart of enemy territory. And Corrick Hilemore is the second lieutenant of an Ironship cruiser whose pursuit of ruthless brigands leads him to a far greater threat at the edge of the world. As lives and empires clash and intertwine, as the unknown and the known collide, all three must fight to turn the tide of a coming war, or drown in its wake. \*Library Journal

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

As "evangelicals" face future challenges, many are turning back to the ancient church for inspiration. But these ancient-future approaches remain diverse and sometimes even at odds with one another. This volume demonstrates and analyzes the complexity of such contemporary church-early church engagements. Six scholars share diverse insights from the Patristic period, including lessons on evangelism and discipleship, community formation and maintenance, use of the "rule of faith," the preaching of social ethics, responses to cultural opposition, and Christological development. The volume closes with two critical responses, from confessional Lutheran and Baptist perspectives. These collected essays will remind contemporary readers of the importance of a reflective and responsible ressourcement of Patristic wisdom.

The Volume speaks to us from the heart and engages the socio-political concerns in the Nigerian context through the lens of a theological approach. The author reflects historically the numerous consequences of the amalgamation of the ethnic groups of different orientations in Nigeria into one

socio-political structure of the colonizers interests. This sociopolitical structure raises several questions than answers it pretends to offer the indigenous people. From a Nigerian point of view, the articles in this volume critically challenge the unjust formation of any nationhood in the Africa context. It points out how the sustenance of an unjust nation formation betrays the creed on which such a nation is established. "Truth conquers all" is the spirit with which this Volume is written. It is the truth that will set a nation like Nigeria free from the spirit of confusion and unperceived religio-socio-political syncretism. The awareness emanating from this volume suggests liberating steps from the unsuspecting colonial interests and the sustained feigned relationship with the colonizers which militate against the socio-political and economic growth, and theological orthodoxy of such a growing nation.
