marks a turning point in modern history and culture. This Companion offers critical overviews of the major

literary genres and social contexts that define the study of the literatures produced by the First World War. The

volume comprises original essays by distinguished scholars of international reputation, who examine the impact of the war on various national literatures, principally Great Britain, Germany, France and the United States, before addressing the way the war affected Modernism, the European avant-garde, film, women's writing, memoirs, and of course the war poets. It concludes by

addressing the legacy of the war for twentieth-century literature. The Companion offers readers a chronology of key events and publication dates covering the years leading up to and including the war, and ends with a current bibliography of further reading organised by chapter topics.

Less than a century old,

the concept of totalitarianism is one of the most controversial in political theory, with some proposing to abandon it altogether. In this accessible, wide-ranging introduction, David Roberts addresses the grounds for skepticism and shows that appropriately recast—as an aspiration and direction, rather than a system of domination—totalitarianism is essential for understanding the modern

political universe. Surveying the career of the concept from the 1920s to today, Roberts shows how it might better be applied to the three "classic" regimes of Fascist Italy, Nazi Germany, and the Stalinist Soviet Union. Extending totalitarianism's reach into the twenty-first century, he then examines how Communist China, Vladimir Putin's Russia, the Islamic Republic of Iran, the self-

proclaimed Islamic State (IS), and the threat of the technological "surveillance state" can be conceptualized in the totalitarian tradition. Roberts shows that although the term has come to have overwhelmingly negative connotations, some have enthusiastically pursued a totalitarian direction—and not simply for power, control, or domination. This volume will be essential reading for any student,

scholar or reader interested in how totalitarianism does, and could, shape our modern political world. Missing Abby North Point Press A New York Times Notable Book A Best Book of the Year: The Economist, The New Yorker, San Francisco Chronicle, Slate.com, and Time In Venice, at the Biennale, a jaded, bellini-swimming journalist named Jeff Atman meets a beautiful

woman and they embark on a passionate affair. In Varanasi, an unnamed journalist (who may or may not be Jeff) joins thousands of pilgrims on the banks of the holy Ganges. He intends to stay for a few days but ends up remaining for months. Their journey—as only the irrepressibly entertaining Geoff Dyer could conjure—makes for an uproarious, fiendishly

inventive novel of Italy and India, longing and lust, and the prospect of neurotic enlightenment . *Death by Mustard Gas* Tim Duggan Books Mordantly funny, thought-provoking travel essays, from the acclaimed author of *Out of Sheer Rage* and “one of our most original writers” (*New York Magazine*). This isn’t a self-help book; it’s a book about how

Geoff Dyer could do with a little help. In these genre-defying tales, he travels from Amsterdam to Cambodia, Rome to Indonesia, Libya to *Burning Man* in the Black Rock Desert, floundering in a sea of grievances, with fleeting moments of transcendental calm his only reward for living in a perpetual state of motion. But even as he recounts his side-splitting misadventures in each of

these locales, Dyer is always able to sneak up and surprise you with insight into much more serious matters. Brilliantly riffing off our expectations of external and internal journeys, Dyer welcomes the reader as a companion, a fellow perambulator in search of something and nothing at the same time.

"May be the best book ever written about jazz."—David Thomson, Los Angeles Times

In eight poetically charged vignettes, Geoff Dyer skillfully evokes the music and the men who shaped modern jazz. Drawing on photos, anecdotes, and, most important, the way he hears the music, Dyer imaginatively reconstructs scenes from the embattled lives of some of the greats:

Lester Young fading away in a hotel room; Charles Mingus storming down the streets of New York on a too-small bicycle; Thelonious Monk creating his own private language on the piano. However, music is the driving force of *But Beautiful*, and wildly metaphoric prose that mirrors the quirks, eccentricity, and brilliance of each musician's style.

The definitive

story of the British adventurers who survived the trenches of World War I and went on to risk their lives climbing Mount Everest. On June 6, 1924, two men set out from a camp perched at 23,000 feet on an ice ledge just below the lip of Everest's North Col. George Mallory, thirty-seven, was Britain's finest climber. Sandy Irvine was a twenty-two-year-old Oxford scholar with little previous

mountaineering experience. Neither of them returned. Drawing on more than a decade of prodigious research, bestselling author and explorer Wade Davis vividly re-creates the heroic efforts of Mallory and his fellow climbers, setting their significant achievements in sweeping historical context: from Britain's nineteenth-century imperial ambitions to the war that shaped

Mallory's generation. Theirs was a country broken, and the Everest expeditions emerged as a powerful symbol of national redemption and hope. In Davis's rich exploration, he creates a timeless portrait of these remarkable men and their extraordinary times. *Spike Island: The Memory of a Military Hospital* Canongate Books 'Quite possibly the best living writer in

Britain' Daily Telegraph Much attention has been paid to so-called late style - but what about last style? When does last begin? How early is late? When does the end set in? In this endlessly stimulating investigation, Geoff Dyer sets his own encounter with late middle age against the last days and last achievements of writers, painters, athletes and musicians who've

mattered to him throughout his life. With a playful charm and penetrating intelligence, he examines Friedrich Nietzsche's breakdown in Turin, Bob Dylan's reinventions of old songs, J.M.W. Turner's paintings of abstracted light, John Coltrane's cosmic melodies, Jean Rhys's return from the dead (while still alive) and Beethoven's final quartets - and considers the

intensification of experience that come when an ending is within sight. Oh, and there's stuff about Roger Federer and tennis too. This book on last things - written while life as we know it seemed to be coming to an end - is also about how to go on living with art and beauty, on the entrancing effect and sudden illumination that an Art Pepper solo or an Annie

Dillard reflection can engender in even the most jaded sensibilities. Blending criticism, memoir and repartee into something entirely new, *The Last Days of Roger Federer* is a summation of Dyer's passions and the perfect introduction to his sly and joyous work. *Another Great Day at Sea* Canongate Books From "one of our most original writers" (Kathryn Schulz, *New*

York magazine) comes an expansive and exacting book—firmly grounded but elegant, often hilarious, and always inquisitive—about travel, unexpected awareness, and the questions we ask when we step outside ourselves. Geoff Dyer's restless search—for what? is unclear, even to him—continues in this series of fascinating adventures and pilgrimages: with a tour

guide who may not be a tour guide in the Forbidden City in Beijing; with friends in New Mexico, where D. H. Lawrence famously claimed to have had his "greatest experience from the outside world"; with a hitchhiker picked up on the way from White Sands; with Don Cherry (or a photo of him, at any rate) at the Watts Towers in Los Angeles. Weaving stories about places to which he has

recently traveled with images and memories that have persisted since childhood, Dyer tries "to work out what a certain place—a certain way of marking the landscape—means; what it's trying to tell us; what we go to it for." With 4 pages of full-color illustrations.

the two-term Poet Laureate of the United States Billy Collins comes his first volume of new and selected poems in twelve years. *Aimless Love* combines fifty new poems with generous selections from his four most recent books—*Nine Horses*, *The Trouble with Poetry*, *Ballistics*, and *Horoscopes for the Dead*. Collins's unmistakable voice, which brings together plain speech with imaginative surprise, is

clearly heard on every page, reminding us how he has managed to enrich the tapestry of contemporary poetry and greatly expand its audience. His work is featured in top literary magazines such as *The New Yorker*, *Poetry*, and *The Atlantic*, and he sells out reading venues all across the country. Appearing regularly in *The Best American Poetry* series, his poems

appeal to readers and live audiences far and wide and have been translated into more than a dozen languages. By turns playful, ironic, and serious, Collins's poetry captures the nuances of everyday life while leading the reader into zones of inspired wonder. In the poet's own words, he hopes that his poems "begin in Kansas and end in Oz." Touching on the themes of love, loss, joy,

 Garry Winogrand—a long with Diane Arbus and Lee Friedlander—was one of the most important photographers of the 1960s and 1970s, as well as one of the world's foremost street photographers . Award-winning writer Geoff Dyer has admired Winogrand's work for many years.

Modeled on John Szarkowski's classic book *Atget, The Street* Philosophy of Garry Winogrand is a masterfully curated selection of one hundred photographs from the Winogrand archive at the Center for Creative Photography, with each image accompanied by an original essay. Dyer takes the viewer/reader on a wildly original journey through both iconic and

unseen images from the archive, including eighteen previously unpublished color photographs. The book encompasses most of Winogrand's themes and subjects and remains broadly faithful to the chronological and geographical facts of his life, but Dyer's responses to the photographs are unorthodox, eye-opening, and often hilarious. This inimitable

combination of photographer and writer, images and text, itself offers what Dyer claims for Winogrand's photography—an education in seeing.

Ways of Telling
Weidenfeld & Nicolson
An intimate narrative history of World War I told through the stories of twenty men and women from around the globe—a powerful, illuminating, heart-rending picture of what the war

was really like. In this masterful book, renowned historian Peter Englund describes this epoch-defining event by weaving together accounts of the average man or woman who experienced it. Drawing on the diaries, journals, and letters of twenty individuals from Belgium, Denmark, France, Great Britain, Germany, Austria, Hungary, Italy, Australia, New Zealand, Russia, Venezuela, and the United States, Englund's collection of these varied perspectives describes not a course of events but "a world of feeling." Composed in short chapters that move between the home front and the front lines, *The Beauty and Sorrow* brings to life these twenty particular people and lets them speak for all who were shaped in some way by the War, but whose voices have remained unheard.

Three hundred and fifty-one men were executed by British Army firing squads between September 1914 and November 1920. By far the greatest number, 266 were shot for desertion in the face of the enemy. The executions

continue to haunt the history of the war, with talk today of shell shock and posthumous pardons. Using material released from the Public Records Office and other sources, the authors reveal what really happened and place the story of these executions firmly in the context of the military, social and medical context of the period.

Winner of the National Book Critics Circle Award in Criticism *A New York Times Book Review Editors' Choice* *A New York Times Top 10 Nonfiction Book of the Year, as selected by Dwight Garner* Geoff Dyer has

earned the devotion of passionate fans on both sides of the Atlantic through his wildly inventive, romantic novels as well as several brilliant, uncategorizable works of nonfiction. All the while he has been writing some of the wittiest, most incisive criticism we have on an astonishing array of subjects—music, literature, photography, and travel journalism—that, in Dyer's expert hands,

becomes a kind of irresistible self-reportage. Otherwise Known as the Human Condition collects twenty-five years of essays, reviews, and misadventures . Here he is pursuing the shadow of Camus in Algeria and remembering life on the dole in Brixton in the 1980s; reflecting on Richard Avedon and Ruth Orkin, on the status of jazz and the wonderous Nusrat Fateh Ali Khan, on

the sculptor ZadKine and the saxophonist David Murray (in the same essay), on his heroes Rebecca West and Ryszard Kapus´cin´ski, on haute couture and sex in hotels. Whatever he writes about, his responses never fail to surprise. For Dyer there is no division between the reflective work of the critic and the novelist's commitment to lived experience: they are mutually illuminating

ways to sharpen our perceptions. His is the rare body of work that manages to both frame our world and enlarge it. *In Wartime* North Point Press The first novel, in revised form, from "possibly the best living writer in Britain" (The Daily Telegraph) In *The Colour of Memory*, six friends plot a nomadic course through their mid-twenties as they scratch out an existence in near-destitute

conditions in 1980s South London. They while away their hours drinking cheap beer, landing jobs and quickly squandering them, smoking weed, dodging muggings, listening to Coltrane, finding and losing a facsimile of love, collecting unemployment, and discussing politics in the way of the besotted young—as if they were employed only by the lives they chose. In

his vivid evocation of council flats and pubs, of a life lived in the teeth of romantic ideals, Geoff Dyer provides a shockingly relevant snapshot of a different Lost Generation. *Into the Silence* powerHouse Books Follow the First World War from 1914 to 1918 through a fascinating collection of historical maps, expert commentary and photographs. *The Search* Canongate

From a writer “whose genre-jumping refusal to be pinned down [makes him] an exemplar of our era” (NPR), a new book that confirms his power to astound readers. As a child Geoff Dyer spent long hours making and blotchily painting model fighter planes. So the adult Dyer jumped at the chance of a residency aboard an aircraft carrier. Another Great Day at Sea

chronicles Dyer's experiences on the USS George H.W. Bush as he navigates the routines and protocols of "carrier-world," from the elaborate choreography of the flight deck through miles of walkways and hatches to kitchens serving meals for a crew of five thousand to the deafening complexity of catapult and arresting gear. Meeting the Captain, the F-18 pilots and the dentists, experiencing

everything from a man-overboard alert to the Steel Beach Party, Dyer guides us through the most AIE (acronym intensive environment) imaginable. A lanky Englishman (could he really be both the tallest and the oldest person on the ship?) in a deeply American world, with its constant exhortations to improve, to do better, Dyer brilliantly records the daily life on board the

ship, revealing it to be a prism for understanding a society where discipline and conformity, dedication and optimism, become forms of self-expression. In the process it becomes clear why Geoff Dyer has been widely praised as one of the most original—and funniest—voices in literature. Another Great Day at Sea is the definitive work of an author whose books defy definition.

 In 1941 close to one million Russian soldiers died defending Moscow from German invasion—more casualties than that of the United States and Britain during all of World War II. Many of these soldiers were in fact not soldiers at all, but instead ordinary people who took up arms

to defend their city. Students dropped their books for guns; released prisoners exchanged their freedom for battle; and women fought alongside men on the bloody, mud-covered frozen road to Moscow. By the time the United States entered the war the Germans were already retreating and a decisive victory had been won for the Allies.

With extensive research into the lives of soldiers, politicians, writers, artists, workers, and children, Rodric Braithwaite creates a richly detailed narrative that captures this crucial moment. *Moscow 1941* is a dramatic, unforgettable portrait of an often overlooked battle that changed the world.
